

Connecting films with their audience

WHO WE ARE & WHAT WE DO

We are Angela Alston and Gwen Alston, a transcontinental sister team. For the past seven years, we've collaborated with filmmakers to help their films reach their audience and realize their goals.

We like to work with powerful films about important issues.

Films we've represented include: **A Sea Change: Imagine a World without Fish**; **Saint Misbehavin': The Wavy Gravy Story**; **Women in the Dirt**; **Awake: The Life of Yogananda**.

WHAT WE OFFER

We work with filmmakers in several different ways:

- **Option 1:** Hourly consultation
- **Option 2:** Outreach outline prep / outreach strategy roadmap
- **Option 3:** Soup to nuts—short- or long-term design and management of community engagement campaign

We also provide services such as: social media training; crowdfunding campaign support; grant writing and editing, and workshops.

WHEN TO HIRE US

We prefer to work with a film from its inception. Ideally our first conversations will begin when a film is in development or pre-production. It's never too early to start connecting with your audience and creating partnerships.
